10 - 12. soruların cevaplarını, verilen parçaya göre işaretleyiniz.

Most people think that in the near future our world will become a worse place to live. They say that governments won't be able to stop global warming and that will cause drought all over the world. That's partly true but we are becoming more environmentally friendly day by day. What I mean is; today more people go to work by bike or on foot compared to past. People try to recycle paper, plastic and glass to protect the environment. In conclusion, government and societies are today more sensitive to the environment so we don't need to worry.

10. What people generally think about our future?

A) Global warming won't be a problem.

B) Governments will take precautions.

C) People will go to work by bikes.

D) Drought will be widespread.

E) People recycle the wastes.

11. The writer isn't worried because - - - -.

A) everybody goes to work by bike or on foot

B) governments won't stop global warming

C) today people are more conscious

D) people will suffer from drought

E) the world will be worse

12. What people do to protect the environment?

A) They don't worry.

B) They recycle the wastes.

C) They suffer from drought.

D) They use public transportations.

E) They won't stop global warming.
